

VINCENT SHEPPARD

Indoor collection 2021

Finding comfort...

Vincent Sheppard has been designing and manufacturing indoor and outdoor furniture with exceptional seating comfort since 1992. The company is worldwide market leader in Lloyd Loom furniture, a technique where kraft paper is twisted around a metal wire and woven into unique furniture pieces.

By constantly challenging itself and its design aesthetics, Vincent Sheppard is able to present young, contemporary furniture collections that answer to all modern needs. We combine a clear focus on quality and comfort with craftsmanship and an age-old technique, and translate these ingredients into qualitative, durable and appealing designs. With a wide variety of indoor as well as outdoor pieces of high quality, Vincent Sheppard is a favourite of many interior aficionados.

sharing moments...

Slow living.

It's a term which has increasingly been used the past couple of years.

In contrast to popular belief, slowing down is not about going slowly. It's about gaining time by doing the things which are the most important to us.

Like sharing beautiful moments together with friends or family. Like having a good laugh around the dinner table. Like curling up in a lounge chair with a good book.

Our aim is to help you create those beautiful memories with our furniture by your side.

SEEZEITLODGE

GONNESWEILER
GERMANY

The Seezeitlodge has been designed by the Berlin design studio GRAFT. The thought behind the impressive building is to use the power of the unique natural location to remain undisturbed. They wanted to intensify the connection between the natural poles of tension on the property: between the forest and the lake, between a sense of being protected and freedom.

TODAY

Today, Vincent Sheppard is a thriving, healthy company with a clear focus on the future. We build on our strong history and invaluable expertise to keep on offering unique and timeless designs that will last a lifetime. Our brand stands for exceptional seating comfort, high quality, and durable materials. Next to the famous Lloyd Loom weave, we also make use of other materials such as rattan, oak, beech and teak wood, along with steel and aluminium, which fit with our DNA of craftsmanship, quality and distinctive design.

INVENTION OF LLOYD LOOM

American entrepreneur Marshall Burns Lloyd invents an entirely new paper weave, which he calls 'Lloyd loom'. The technique consists of twisting Kraft paper around a steel wire on a loom.

1995

PRODUCTION PLANT IN INDONESIA

Vincent Sheppard builds its own factory in Cirebon, Indonesia, an area famous for its tradition in weaving techniques and rattan bending. By setting up a production facility, Vincent Sheppard becomes one of the very few vertically integrated Lloyd Loom manufacturers.

2014
